

The **Community Initiatives Fund (CIF)** covers all areas of Saskatchewan. To more effectively administer its programming, the CIF has geographically divided the province into regions. Your project would correspond to one of the four regions: Provincial, North, Central, or South region, as illustrated on the map. Urban areas situated on boundary lines will be included in the region above (to the north of) the boundary line.

Provincial

The "Provincial" category geographically covers the province. Provincial projects are those that may either be delivered in two or more regions or involve participation from across Saskatchewan.

North

The "North" region extends from the Alberta to Manitoba borders, beginning (L-R) north of Goodsoil, Meadow Lake and across to Nipawin, then along the North Saskatchewan River and south of Cumberland House. This line follows the existing boundary of the Northern Administration District.

Central

The "Central" region extends from the Alberta to the Manitoba borders in a straight horizontal line from the Alberta border, along Highway #15 through Kenaston to the Manitoba border.

South

The "South" region extends (L-R) south of the Central region from the Alberta to the Manitoba borders, and ends at the 49th parallel, the US Border.
